

Meet the challenges of regulatory compliance

From general product safety (RGSP) to the fight against deforestation (RDUE), from the AGEC law to the digital passport (DPP), from extra-financial reporting (CSRD) to the duty of care (CS3D), traceability obligations are multiplying, impacting your company.

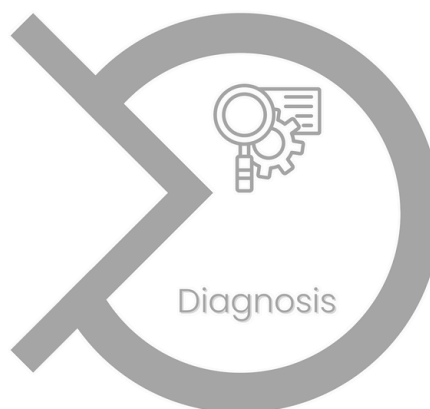

Why choose Transparency Consulting?

TRANSPARENCY CONSULTING OFFERS FAST AND EFFECTIVE EXPERT DIAGNOSTICS TO HELP YOU COMPLY WITH TRACEABILITY REGULATIONS, MANAGE RISKS AND IMPROVE YOUR PROCESSES.

- **Advanced expertise:** Our consultants, Jean-Luc Viruéga and Alain Broustail, are recognized leaders in the fields of traceability and systems interoperability.
- **Fast, efficient diagnosis:** Two 3-hour consultations to help you identify your priorities and solutions.
- **A customized deliverable:** A complete report with concrete recommendations and areas for improvement is delivered to you.

2 working sessions based on your documents and issues

Diagnostics and recommendations drafted by our experts for decision-makers (compliance, risk management, insurance, quality, industrial risk, purchasing, legal or IT).

Why does this concern you?

- **Regulatory Compliance:** Avoid penalties and sanctions through optimal compliance.
- **Risk Management:** Minimize industrial risks and improve product safety.
- **Procedure Optimization:** Improve your internal processes for greater efficiency.

Our 3 products

Manage the recall or withdrawal of your products

Whether due to non-compliance or a requirement from an authority, a recall or withdrawal is a nightmare for any manufacturer. Do you have the means to respond effectively to this situation?

Opposability of data

In the event of a dispute or audit, you'll need to present reliable data as evidence. Are you ready to provide this evidence and demonstrate the conformity of your products and procedures?

Duty of vigilance

Do you know all your subcontractors and how to monitor them? Do you have the means to manage the risks generated by your supply chain?

Our experts
